DATE MAILED: 09/22/2005

Please find below and/or attached an Office communication concerning this application or proceeding.

Office Action Summary

Application No.

10/003,554

Applicant(s)

NGUYEN ET AL.

Examiner

Karen L. Le

Art Unit

2642

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE ____ MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☐ Responsive to communication(s) filed on 16 August 2005.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

- 4) ☒ Claim(s) 1-43 is/are pending in the application.
- 4a) Of the above claim(s) ____ is/are withdrawn from consideration.
- 5) ☐ Claim(s) ____ is/are allowed.
- 6) ☒ Claim(s) 1-43 is/are rejected.
- 7) ☐ Claim(s) ____ is/are objected to.
- 8) ☐ Claim(s) ____ are subject to restriction and/or election requirement.

Application Papers

- 9) ☐ The specification is objected to by the Examiner.
- 10) ☐ The drawing(s) filed on ____ is/are: a) ☐ accepted or b) ☐ objected to by the Examiner.
- Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a).
- Replacement drawing sheet(s) including the correction is required if the drawing(s) is objected to. See 37 CFR 1.121(d).
- 11) ☐ The oath or declaration is objected to by the Examiner. Note the attached Office Action or form PTO-152.

Priority under 35 U.S.C. § 119

- 12) ☐ Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f).
- a) ☐ All b) ☐ Some * c) ☐ None of:
1. ☐ Certified copies of the priority documents have been received.
 2. ☐ Certified copies of the priority documents have been received in Application No. ____.
 3. ☐ Copies of the certified copies of the priority documents have been received in this National Stage application from the International Bureau. (PCT Rule 17.2(a)).

* See the attached detailed Office action for a list of the certified copies not received.

DETAILED ACTION

1. Applicant's amendment filed on August 16, 2005 has been entered. No claims have been amended. No claims have been cancelled. No claims have been added. Claims 1-43 are still pending in this application, with claims 1, 10, 24, and 32 being independent.

Claim Rejections - 35 USC § 103

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 1- 43 are rejected under 35 U.S.C. 103(a) as being unpatentable over Cai et al. (U. S. 6,590,970) in view of Smith (U.S. 5,559,871)

Regarding claims 1,10, 24 and 32, Cai teaches in an intelligent switched telecommunications network (Fig. 1, item 110), a method and for setting a limit on the duration of a voice channel communication, comprising the steps of: receiving a communication from a subscriber on a first network element (fig. 1, item 116), said communication causing said first network element to send a request to a second network element (Fig. 1, item 118), in response to said request, sending a message

from said second network element to said first network element, causing said first network element to request entry of demarcation information, wherein said demarcation information comprises a demarcation interval, receiving said demarcation information at said first network element, and communicating said demarcation information to said second network element, causing said second network element to store said demarcation information (Col. 3, lines 32-41, Col. 4, lines 8-30 and 50-60). Cai does not teach a method for setting a limit on the duration of a voice channel communication wherein said subscriber provides said demarcation information. However, Smith teaches a method for setting a limit on the duration of a voice channel communication wherein said subscriber provides said demarcation information (Col.5, Lines 20-25). Smith teaches a method that allows the user to predetermine the cost and duration of the call. The system checks the user limit against the customer record. The user may also be given the option to extend the call. Thus it would have been obvious to one of ordinary skill in the art at the time the invention was made to incorporate Smith's feature to Cai's system in order to allow the subscriber to provide and select demarcation information.

Regarding claims 2 and 18, Cai does not teach the step of storing said demarcation information comprises: comparing said demarcation interval to a default demarcation interval; determining which quantity is a lesser quantity; and storing said lesser quantity as said demarcation interval. However, Smith comparing said demarcation interval to a default demarcation interval; determining which quantity is a

Art Unit: 2642

lesser quantity; and storing said lesser quantity as said demarcation interval (Col. 5, lines 29-45)

Regarding claims 3, 11-12, 17, 25 and 28, Cai further teaches the demarcation information further comprises a time period to which the demarcation interval applies (Col. 4, lines 50-60 and Col. 3, lines 32-41).

Regarding claims 4, 14, 19-20, 26, 36, 39-40, Cai teaches the demarcation information further comprises identification information for a first station participating in said voice channel communication (Fig. 1, item 102, Col. 1, lines 21-23 and Col 4, lines 19-24).

Regarding claims 5, 15, 27 and 37, Cai teaches said demarcation information further comprises identification information for a second station participating in said voice channel communication (Fig. 1, item 130, Col. 1, lines 21-23, Col. 4, lines 8-9).

Regarding claims 6, 16, 23 and 38, Cai does not teach receiving of said demarcation information comprises receiving said demarcation interval as a monetary quantity. However Smith teaches receiving of said demarcation information comprises receiving said demarcation interval as a monetary quantity (Col. 1, lines 30-32).

Regarding claims 7, 21, 29 and 41, Cai teaches said first network element comprises a service switching point (Fig. 1, item 116).

Art Unit: 2642

Regarding claims 8, 22, 30 and 42, Cai teaches said second network element comprises a service control point (Fig. 1, item 118).

Regarding claims 9, 31 and 43, Cai teaches said second network element further comprises a billing element, billing for accepting and enforcing said demarcation information (Col. 6, lines 1-4).

Regarding claims 33-34, Cai teaches first network element comprises a demarcation signal component and a communication disconnection component (col. 3, lines 39-42).

Regarding claims 13 and 35 Cai does not teach identification information comprises a password, said password causing said second network element to determine that said demarcation interval is infinite. However, Smith teaches identification information comprises a password, said password causing said second network element to determine that said demarcation interval is infinite (col. 5, lines 29-45)

Response to Arguments

5. Applicant's arguments with respect to claims 1-43 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

6. **THIS ACTION IS MADE FINAL.** See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Art Unit: 2642

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Karen Le whose telephone number is 571-272-7487. The examiner can normally be reached on 8am-5pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Ahmad Matar can be reached on 571-272-7488. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
